Today we officially announced our partnership with [CaringBridge](http://CaringBridge.org) . We are absolutely thrilled to be using our expedition to benefit this truly incredible organization. You can read the press release here.

CaringBridge.org offers free personalized websites that support and connect loved ones during critical illness, treatment and recovery. The goal of this service is to ease the burden of keeping friends and family updated, while also providing a way for them to send their love, support and encouragement.

[We aim to raise at least \\$100,000 for CaringBridge.](#)

CaringBridge is the world's largest charitable nonprofit Web site, it connects over 20 million families each year through personal, private CaringBridge Web sites. Yet, currently

CaringBridge is used less than 2% of new cancer victims, the capacity for growth in awareness of CaringBridge is huge. Help us spread the word, tell your friends and loved ones about CaringBridge.

[Please join us in our aim to raise at least \\$100,000](#) for CaringBridge via our historic Victorinox North Pole '09 Expedition. Your donation will move us several more steps closer to our CaringBridge fundraising goal.

We are proud that we are able to use our expedition to raise awareness and funds for CaringBridge. We believe that with compassionate support and an optimistic mindset all people have a limitless power to push beyond their perceived limits and reach their goals.

While skiing to the North Pole our minds will often wander to the positive people in our lives and those who have been an inspiration in pursuit of our dreams. Although we will only be two people skiing together on the ice, we know that thousands more will be pulling for us every step of the way. This knowledge will give us an immeasurably positive boost as we encounter challenges along the way, and we are extremely grateful for your support. Thank you for your support!
